REVIEW:

It was a relief travelling to several countries with this bag knowing my wallet and all our passports were safe but my hands were free. Accessing the zippered pockets to get to my money was a bit slower but for peace of mind it wasn't really an issue. It was large enough to carry water, ipad, DSLR Camera and extra lens, plus all the day to day necessities. Its fashionable looking too.

Pros:

- Lightweight
- Leaves your hands free to take photos or shop
- Can be worn as a sling or backpack
- Easy to access side pocket for train tickets etc
- Travel knowing that every thing is secure.
- Large enough to fit ipad, large camera, wallet and extras.

Cons:

- Would have liked it to be waterproof.
- Can be slower accessing internal contents.
